

## Municipal Aggregation Update 05-20-2022

Dear Municipal Aggregation Communities,

Many residents have been receiving letters from Ameren letting them know that their electric service will be returned to Ameren Illinois Rider BGS and there has been some confusion around this letter. I wanted to let you know the letter was sent out due to a timing issue with Ameren. Constellation has let Ameren know they are going to be the new service provider and this will clear everything up. Ameren processed the request from Homefield before processing the request from Constellation about the new program. Residents will be receiving another letter letting them know the Constellation will be their new supplier for electric service.

Residents do not need to do anything to remain in the aggregation program. If they were in the previous program with Homefield they will be in the new program unless they opted out.

We apologize for any confusion this may have caused. My contact information is below feel free to contact me if you have any further questions.

Residents can call directly if they are concerned. Constellation's phone number is 833-358-0518

Thank you,
